

Execution Planning Playbook

Turn Your Strategy into an Actionable Plan

You have the strategy. Now what? More than 70% of companies with a strategic plan don't execute it.¹ Leveraging Technology facilitates the translation of your strategy into an executable plan that is understood by your organization and the stakeholders expected to deliver.

For a major financial institution, LT's Execution Planning Playbook resulted in **\$3M** of Cost Avoidance and **\$6M** of Secured Revenue. The Playbook is perfect for:

Mergers & Acquisitions

Cyclical Strategic Planning

Regulatory Changes

New Lines of Business

Reorganizations

Business Transformations

Execution Planning Playbook Delivers Winning Strategies

A good strategy is one that can be implemented across the organization. Leveraging Technology's Execution Planning Playbook is a disciplined process to:

- **Translate** the strategy into an executable roadmap
- **Communicate** a common understanding and **Gain Buy-In** of the plan
- **Visualize** the projects needed, what it takes to get them done, and when they will be ready.
- **Align** the work back to strategy and goals
- **Execute** the plan effectively across the organization
- **Identify & Manage** risk proactively
- **Realize the Value** of your strategy through Program Management
