

## IBM Software Training

With high-quality IBM content delivered by Global Training Provider Ingram Micro, you can develop a strong skills portfolio to grow your career and stay competitive in an ever-changing technical marketplace.

### IBM Training – Special 10% Discount for New Customers

You've already made a significant investment in IBM products; learn how to use them to their fullest potential. Choosing the right training provider is critical.

### Leveraging Technology, IBM and Ingram Micro – over 18 years of Shared History

Access to discounted IBM training offered through our distributor, Ingram Micro – at significant savings!

**Book a training class by 9/30/16 and save 10% – as much as \$450 per person.**

*(Training class – virtual or onsite – can be scheduled anytime; payment must be made by 9/30/16 to receive the discount.)*

- **Instructors with real-world experience**
- **Learn from the comfort of your own home or office**
- **Customize a training roadmap to fit your needs**  
Most courses are taught virtually or can be scheduled onsite at your team's convenience. Online instructor-led courses enable you to interact with the instructor as if you were sitting right in the classroom.
